MED.IC® RFID Smart Cabinet Enabling Automated Inventory Control

MED.IC® delivers a new paradigm in asset visibility, security, and automated inventory management. MED.IC® uses on-demand sensing to identify items removed or added to the cabinet, while transactions are automatically associated to the user. Enabled with UHF Gen 2 RFID technology MED.IC® provides fast, auto-inventory functionality for reliable management of your valuable medical assets.

Reliable and Secure Inventory Control

- Automatic check in/out provides 100% accountability
- Quickly scans hundreds of tagged items simultaneously
- E-mail notification of “out of stock” or “low stock” inventory
- Auto-notification of an item’s expiration, calibration date, etc.
- Reduces inventory shrinkage and obsolescence
- Improves product regulatory surveillance

Comprehensive Versatility

- Easy –to-use touch screen interface
- Secured accessibility using access code, fingerprint, or smart pass
- Web-based browser for remote inventory monitoring and reporting
- Maximizes utilization by using the latest EPC Global compliant UHF Gen 2 technology
- Optional interfaces allow data synchronization between multiple Cabinets and existing company inventory systems
- Cabinets are available in multiple sizes, colors and configurations

Let us show you how MED.IC smart cabinet technology provides secure and accurate inventory control of your valuable medical assets. Call us directly at 260-399-1641 or visit us on the web at www.solsticemedical.com.
