DOCK to DOC® System Solutions Enabling Remote Inventory Visibility And Workflow Optimization

DOCK to DOC is a robust asset management system, consisting of RFID and software technologies, that creates visibility and traceability of implants, surgical instruments, and other medical assets. From manufacturing through point of care, DOCK to DOC® delivers valuable device status information on demand.

A Comprehensive Suite of Technology Solutions

- Medical Grade RFID Tags
- Automated Inventory Cabinets and Reader Portal
- Web-Based, Real-Time Inventory Management Software

DOCK to DOC® Creates Value By:

- Reducing high-value excess inventory
- Reducing field inventory management
- Enabling remote inventory visibility
- Meeting FDA regulations

Let us show you how DOCK to DOC improves your profits by facilitating reliable, cost effective asset management. Call us directly at 260-399-1641 or visit our web site at www.solsticemedical.com.
